Peterson's Ponies & Registered Haflingers

A small family ran Haflinger farm located in the north central Iowa town of Britt owned and operated by Paul & Marsha Peterson along with Randy, Laurie & Hayden Hadacek. It all started with Paul's parents Emmanuel and Hazel Peterson. Emmanuel had grown up farming with horses and all though it was hard work, he always thoroughly enjoyed it. After he was done farming with the horses, he sold his team of Belgians. As time went on he sure missed them. With all of the grandchildren that were filling up the family, he thought it was time to enrich their lives by growing up with Shetland ponies. The Shetlands taught all of the grandkids and friends many life lessons. One was when they run you off under the tree, you need to catch them and get right back on. All of us well, most of us thoroughly enjoyed the Shetland ponies and their antics. Come to find out they make great sto-

ries as the years go by and teach you to never quit. When Emmanuel and Hazel moved to town, the ponies went to Paul & Marsha's farm. Their family of three girls (Angela, Toni, & Laurie) enjoyed riding, driving, breeding, raising foals and showing in open and 4H shows. As time went on, it was decided we needed something bigger and stronger. Emmanuel, Paul & Marsha discussed this dilemma for a long time. The guys wanted Belgians but Marsha disagreed because they were too big and ate too much. Paul had heard of this mighty little horse called a Haflinger that looked like a Belgian which matched all of their criteria. They asked around at many horse sales to see who had any Haflingers. They were told to talk to Stewart (Stu) Wilder of Clear Lake, Iowa. They were surprised to hear that he was only 25 miles away. That first visit with Stu and his wife Lenna led to a life-

Peterson's Ponies & Registered Haflingers

long friendship (family) and a forever love of this great breed. We went on many trips attending horse sales, fairs, and expos all across the country as a family with Stu. If anyone reading this that knew Stu, would know it was always an adventure no matter what you were doing. He had a big personality and a giving heart. We ended up hearing about a breeder in Wisconsin that was wanting to retire. We went to Wisconsin with our Percheron friends Larry and Trudy Folkerts to see what he had. It was a very memorable couple of trips out there as we decided to purchase them. A stallion (McCloud) 2 mares full sisters (Christy A and Crystal Clea) in foal and with foals on their side. We were so excited to get them home and start this new adventure! After Paul's mom had passed away in the spring of 1994, Emmanuel was ready to be back out at the farm. Everyday when Paul got home from work, Emmanuel and Laurie would

have the 2 teams of shetlands and the team of Haflinger mares hitched up. We were driving 3 teams at the same time and the poor dog didn't know which wagon to ride in. When the wagon stopped, he would bail out and hop in the next one. We will always cherish those memories spent together. Emmanuel loved the Haflingers as much we did. That fall we took the first stud colts to the Haflinger sale in Gordyville, Illinois. It was a great opportunity to network and visit with other great Haflinger owners. The best way to interact with people back then was to go to horse sales and start visiting. We have made many great friends at sales over the years.

In 1995 our first Haflingers foaled on the farm were 2 fillies out of full sisters and McCloud. Their names were Crystal's Lucky Charm and Cadillac Cutie (deceased). We were very blessed that they were a great match and both fillies. Their bloodlines are still in our breeding program today.

The thing about the Haflinger is that they are such a people pleaser and just love the people that care for them. Emmanuel had a very severe stroke. He had to relearn everything, never afraid of hard work he pressed on. He was in the nursing home for rehab and very frustrated, the therapist couldn't get him to interact much at all with oth-

er residents. Usually very friendly and would chat about anything, he was missing his independence and horses. The therapist was trying to get him to set goals. Can you guess by now what that goal was? He said "I want to drive my Haflingers again"! So he worked very hard and it wasn't easy, but he ended up driving his Haflingers for the first time on a small wagon train that went 20 miles in one day! Paul and Emmanuel switched off and on driving, with a wagon full of family(3 generations) enjoying the ride. Marsha was out of the wagon taking pictures as they came down the road, Emmanuel thought it would be funny to keep veering over to let her know they went where he put them. He had the biggest smile on his face, Marsha laughed after she got out of the way. Are you catching the theme here, friends, family and Haflingers, not a better combination out there. Emmanuel went on to live at home by himself until

the age of 91, when he passed. It was always fun listening to horse stories from our expert horseman. He never missed an opportunity to tell you how to hook them up and teach the grandkids and great grandkids how to do it the right way. I also think one of his favorite things was to tell Paul he had a twist in the lines, because he was always in a hurry.

We decided it would be a great way to promote this great breed to go to the Iowa Horse Fair and Minnesota Horse Expo. We signed up with many friends over the years to showcase the golden horse with the big heart at such events. Of course all of the Haflingers always catch everyone's eye and soon their heart. We have shown all three of our stallions and many others at both of these events. McCloud would stand all day and let everyone pet him, he loved the attention.

We have always enjoyed promoting

Peterson's Ponies & Registered Haflingers

this great breed and enjoy exposing new people to the Haflingers. Over the years we have enjoyed driving and riding, some different things we have done: parades, disc, plow, mow hay, haul manure, drag, seed hay fields along with many other fun things. We have also hosted many school farm trips to educate the kids on the ponies, that is always fun to see their excitement.

When Laurie graduated high school, Stu and Lenna gave her an awesome gift. It was a weanling Haflinger stallion Newsmonger MJE. He is still in our breeding program having sired many foals and will live out his days here, as all the Haflingers are family too. If you want to nurture the breed, contribute to the next generation.

In 2014 we went out the IHHA sale and purchased Allison Of The Valley AD-EL, he has been a great addition to our breeding program.

At this time we currently have 7 Registered Haflinger Mares, 2 Registered Haflinger Stallions, 2 Registered Haflinger Geldings, a ½ Haflinger ½ Appaloosa, and our old shetland Lacy 31 years young (she is the last left out of our shetland bloodlines) yes, she still keeps us on our toes. In fact this fall she kept escaping out of the horse lot, she loves the foals, because they are her size. We have an electric fence around our lot, we couldn't figure out how she was getting out, the fence was hot, nothing was wrong. Well her coat is so fluffy, she

doesn't get zapped. When the hay is gone out of the bunk she can be found grazing under the apple tree.

We put up all of our own hay in small square bales, then we stack it away in the barn. It takes tons of help to put up all the hay, I guarantee there are not very many of Emmanuel's grand kids/great grand kids that haven't baled hay or worked a pitchfork. It is the right of passage you want to ride or drive you need to help.

We now sell all of our foals privately and online all over the country. Our first internet sale was in 2007, before that we mostly sold at sales and word of mouth. We have thoroughly enjoyed all the new Haflinger families and friendships made! Keeping in touch with them and receiving updates on their Haflingers is very rewarding.

We appreciate all of our family and friends that have helped us with various tasks throughout the years, we couldn't do it without them. Great memories made by all! A wagon full of Grandkids with Grandpa on the lines with Grandma beside him on the seat, the names just change with the generations.
